

SMITA SINGH

+91-7470408117 singhsmita825@gmail.com smita-singh smitasingh1122

Summary

Computer Science student skilled in C, C++, and Python. Focused on MySQL database solutions and HTML/CSS web design. Passionate about learning new technologies and contributing to team goals. Seeking a first-year internship to build hands-on industry experience.

Education

Jaypee University of Engineering and Technology

Guna, MP

Bachelor of Technology in Computer Science and Engineering

Aug. 2025 – May 2029

Relevant Coursework: **C Programming**, Discrete Math, OOP (C++), Electrical Science, Engineering Physics and Workshop Practices.

Christ Jyoti Senior Secondary School, Class XII (CBSE)

Singrauli, Madhya Pradesh

Aggregate: **86.0%**

2025

Christ Jyoti Senior Secondary School, Class X (CBSE)

Singrauli, Madhya Pradesh

Aggregate: **95.4%**

2023

Skills

Languages: SQL, HTML, CSS, C, C++

Tools & Platforms: Git/GitHub, VS Code

Soft Skills: Strategic Problem Solving, Technical Documentation

Hackathons & Awards

Vibe Coding Event

Aug 2025

Lead Participant — Automated Student Grade Calculator

- Developed a high-performance C++ application to automate GPA calculation and academic performance tracking.
- Implemented conditional logic and **Object-Oriented Programming (OOP)** to categorize students based on custom grade thresholds.
- Integrated file-handling systems to export structured report cards, securing a **2nd Place** finish for code efficiency and accuracy.

Kodeathon — JUET Guna

Mar 2025

Competitive Programming Participant

3rd Place Winner

- Participated in a high-intensity challenge, solving 15 DSA problems using **C and C++**.
- Optimized solutions for memory efficiency and execution speed within a 3-hour time limit.
- Ranked 2nd university-wide among all first-year participants for logical accuracy and speed.

Projects

Full-Stack Login & Registration System

Jan 2026

Python, MySQL, HTML, CSS

- Developed a secure user authentication system linking a web-based front-end to a **MySQL** backend.
- Implemented relational database logic to securely store, retrieve, and validate user credentials.
- Designed a responsive user interface using **HTML and CSS** to ensure seamless cross-device compatibility.

Automated Student Grade Calculator

Feb 2026

C++, File Handling, OOP

- Created a high-performance C++ application to automate academic performance analysis and GPA calculation.
- Utilized **Object-Oriented Programming (OOP)** principles to manage student data and grade distribution logic.
- Integrated file-handling capabilities to generate and save detailed student report cards as permanent text records.

Certifications

- **IBM Certification:** Introduction to HTML, CSS, and JavaScript — Gained proficiency in **Front-End Development**, responsive web design, and interactive scripting to build modern user interfaces.
- **Google Cloud:** Generative AI Fundamentals — Validating core knowledge in **Large Language Models (LLMs)**, responsible AI practices, and the foundations of AI-driven application development.
- **Microsoft Certified:** Programming in C and C++ — Demonstrating expertise in **Memory Management**, low-level programming logic, and building high-performance software applications.
